Document Organization Summary

This document is designed to assist the reader in understanding the City's budgetary processes and resultant budgets. It is organized as follows:

Mayor Transmittal Letter: The Transmittal Letter submitted by The Mayor to the City Council to summarize the budget recommendations, compiled from detailed information obtained from the various departments and prepared by the Director of Finance, for conducting the affairs of the City for the following year.

The Introductory Section: A summary of the overall document structure, contents and purpose, the City's profile, background and demographics, and City Government structure.

Budget Policies: This section includes a summary of the provisions regulating the City's budget, tax levies, budget preparation processes, and appropriations as set forth in the Ohio Revised Code and the City Charter.

City Fund Structure: The City's budget is organized by fund. Each fund consists of major categories. The major funds are: The General Fund, Special Revenue Funds, Enterprise Funds, and the Agency Fund. Funds from Federal and State grants are not included in the City's Budget as they have their own funds and operate on a fiscal year determined by the grantor rather than the City's fiscal year. This section also contains historical summaries of all City annually appropriated revenue sources, historical expenditures by Department, and historical summaries and projected balances for all City funds.

Department Detail: Included for each Department and Division within the City are narratives defining each section. Also included for each Department / Division are detailed, 3 year historical budgetary line item expenses and revenue, as well as detailed staffing levels.

Glossary: Included in the document is a Glossary provided to aid with terminology that may be unique to the City.

To the Cleveland City Council and Citizens of Cleveland:

Since 2006, the City of Cleveland has successfully faced financial challenges. By focusing on streamlining operations, reducing costs, increasing revenue and refinancing debt, we have managed to close potential budget gaps and balance the budget with minimal layoffs and service reductions.

These efforts became increasingly important as the recession that began in 2008, continued throughout 2009. The recession had a significant impact on the City's income tax collections, with a loss of \$26 million in income tax in 2009 and therefore presented the potential for a deficit in 2010. In order to help balance the 2010 budget and avoid layoffs, most City employees agreed to a one-year wage and longevity concession arrangement.

The City of Cleveland's 2011 budget also faces challenges. We are projecting general fund revenue to be \$505,974,141 with expenses of \$512,302,264. The continued loss of income tax revenue is reflected in these figures. And while we have reduced our operating costs in many areas, the cost of providing health care for our employees has continued to rise. The impact of the global financial crisis, which began in the financial markets around the world, is now being felt at the state government level. This year, the State of Ohio is facing a budget deficit of \$8 billion or more. Balancing the state budget will require budget cuts and state revenue the City has historically received, namely the local government fund and the estate tax, may be at risk.

This 2011 Mayor's Estimate addresses these challenges and a potential \$28 million deficit, while maintaining the same level of service we provided in 2010. First, it includes the restoration, as we are obligated to, of the 2010 wage and longevity concessions in the amount of \$19 million citywide. In addition, it includes the health care benefits at 2010 levels for the first quarter. But this level of expense is unsustainable for the entire year. After the first quarter, we must reduce our operating costs in order to balance the budget.

Therefore, the budget contains the following measures:

- Increased employee contributions to health care premiums effective April 1;
- No cost of living increase for 2011;
- A \$3.6 million reduction of local government fund (LGF) revenue to help mitigate the impact of a potential 20% annual cut to LGF;
- The elimination of most vacant positions;
- The continuation of the hiring freeze that has been in effect since 2006, except for critical positions;
- One-time revenue in the amount of \$12 million from the sale of the convention center for the Medical Mart project; and
- \$3.7 million bed tax that will come to the city on an annual basis as a result of the Medical Mart agreement.

To date, we have successfully negotiated with the FOP and the CPPA on wages and health care benefits. This, in addition with the administrative decision to enact these measures for non-union personnel, provides a pattern for the negotiations with the City's remaining collective bargaining units. If we fail to reach agreements based on this pattern, the City will be required to find ways to further reduce operating costs.

Mayor's Letter of Transmittal

Over the past five years, we have been proactive in reducing our costs. At the same time, we continue to work to bring private investment to the city, even in these hard economic times. Within the last month we have closed upon three major development projects that will further my goal of making downtown Cleveland a thriving 24-hour city: a \$465 million Medical Mart and Convention Center, a \$272 million Flats East Bank project, and a \$33 million Greater Cleveland Aquarium project. These will create thousands of short-term construction jobs and long-term jobs in the hospitality, health care, retail and service industries, providing a welcome infusion of tax revenue for the city.

But this will not be enough to sustain our economy in the long-term. Therefore, we are continuing efforts to create sustainable economic growth and stability through the 10-year Sustainable Cleveland 2019 initiative.

All of what I have shared with you has an impact on the City's finances. The greatest challenges to our finances this year are the uncertainty created by the potential state deficit and the slow global economic recovery. However, with this estimate, I am presenting a solid plan for balancing our budget despite the uncertainties.

Therefore, as required by Section 38 of the Charter of the City of Cleveland, I transmit the estimate of receipts and expenditures for all City departments and divisions for the year 2011, representing a general fund operating budget of \$512,302,264 and a total citywide budget of \$1,289,296,972.

Sincerely,

Frank G. Jackson, Mayor
City of Cleveland

The City of Cleveland's budget is one of the most important documents that the City prepares as it identifies the services to be provided and how they will be financed. The City's Budget document, therefore, is intended to serve as the following:

The Budget as a Policy Guide

The Mission of the City of Cleveland is "We are committed to improving the quality of life in the City of Cleveland by strengthening our neighborhoods, delivering superior services, embracing the diversity of our citizens, and making Cleveland a desirable, safe city in which to live, work, raise a family, shop, study, play and grow old." As a policy guide, the Budget serves to inform the citizens of Cleveland on policies, goals, and objectives in place during the coming year for the satisfaction of its mission statement as well as major programs to be financed.

Prudent fiscal management requires the use of budgets to efficiently allocate resources and manage ongoing operations. The written budget document itself outlines the financial needs of the City and itemizes the amount of money to be used for various projects in order to make better choices and decisions concerning policies and activities that can or can not be implemented. This also helps to establish accountability for the effective operation of programs and activities to be delivered.

The Budget as a Financial Plan

The City's financial forecasts use internal historical data, National and State economic indicators, and expense and revenue projections to estimate the future financial state of the City including decisions for controlling expenses and increasing revenue.

The following data sources are used by the Office of Budget and Management for the generation of the monthly Financial Outlook Reports in support of required internal decision making processes:

- Workforce Trends – Includes comparisons of National, State, and local unemployment rates and trends
- WARN Notifications - Required layoff announcements for the Cleveland area resulting from the Worker Adjustment & Retraining Notification Act (WARN) which is a federal law that requires employers with 100 or more full-time workers to provide advanced notification to workers when faced with a plant closing or mass layoff.
- Housing Data – This section provides average listing price for homes for sale in Cleveland, foreclosure filings, and the status of building permits in the area.
- CPI – 12 month Consumer Price Index trends for the area.

Fiscal Policies for the City of Cleveland, dictated by state law, City ordinances, and administrative policies, provide administrative guidelines for planning and directing the City's day-to-day financial affairs. A summary of the specific policies upon which the budget was developed are as follows:

- Balanced Budget as required by law.
- Modified Accrual Accounting Methodology which records revenues when available and expenditures when services are received and treats encumbrances as expenditures at the time the funds are encumbered.
- Internal Accounting Controls which assure the safeguarding of assets against loss from unauthorized use.
- Yearly Audits of all financial records and actions of the City, its officials and employees in compliance with local, State, and Federal law.
- Aggressive Cash Management and Investment policies and programs to help achieve the maximum financial return of invested funds.

The Budget as an Operations Guide

As an operations guide, the Budget indicates how departments and funds are organized and informs the reader of all the activities, services and functions carried out by each department. Each Department Summary section lists its mission statement, a brief department description along with objectives and performance measures. Also included are detailed 3 year expense and revenue budgets as well as staffing levels.

The Budget as a Communication Device

As a communication device, the yearly budget provides summary information to aid constituents in interpreting the document. Our goal is to make it an effective communication tool that clearly explains significant budgetary issues, priorities, goals and objectives, and financial strategies of the City. The yearly budget plan allows the Senior Administrative Team to establish a baseline of accountability.

To satisfy our goal, this budget document includes a Mayor's Transmittal Letter which summarizes all of the fiscal plans of the City for the upcoming fiscal year.

Updated Charts and graphs have been added to help consolidate, summarize, and better explain the information as much as possible. There is also a detailed table of contents and a glossary of common terms to make it easy to locate and understand its contents.

Our structured monthly reports to senior management provides a roadmap that helps by communicating the City's current position on issues and resources, highlighting deadlines for content delivery, and understanding the next steps for goal achievement.

The City of Cleveland has annual operating budgets and multi-year budgets. The annual operating budget covers the calendar year and primarily relates to the normal daily operations of the City. This budget outlines specific expenditures (salaries, supplies, etc.) and programmatic totals. Under Ohio law, cities are required to maintain their accounts on a cash basis. Therefore, expenditure amounts presented in this document include not only actual expenditures, but also encumbrances and pre-encumbrances. Budgets that fall under this annually appropriated category are:

- General Fund
- Restricted Income Tax
- Street Construction & Maintenance
- Utilities
- Airports
- Convention Center
- West Side Market
- Stadium Fund
- East Side Market
- Parking Facilities
- Cemeteries
- Golf Courses
- Motor Vehicle Maintenance
- Information Systems Services
- Telephone Exchange
- Printing & Reproduction
- Storeroom
- Central Collection Agency
- Sinking Fund

The multi-year budgets that span several years primarily consists of capital expenditures or grants. These budgets cover programs or projects which either require more than one year to complete or which bridge two calendar years. Examples are:

- Capital Projects
- Categorical Grants
- Community Development Block Grant (CDBG)
- Workforce Investment Act (WIA)

The Mayor's Estimate and final resultant budget book, focuses only on the annual operating budget for each division.

*City of Cleveland Profile**

The City of Cleveland is the county seat of Cuyahoga County, the most populous county in the state. Cleveland has grown from an average of approximately 17,000 people in 1850 to an estimated 398,000 in 2010. According to the Community Survey estimates for 2010, the racial composition of Cleveland is 51% African American, 40% Other American, and 9% Hispanic and Latino Americans. Cleveland is currently estimated to have 213,000 households with a median family income of \$35,000.

According to the United States Census Bureau, the city has a total area of 82.4 square miles consisting 77.6 square miles of land and 4.8 square miles of water. The shore of Lake Erie is 569 feet above sea level; however, the city lies on a series of irregular bluffs cut principally by the Cuyahoga River, Big Creek, and Euclid Creek. Public Square, less than a mile inland, sits at an elevation of 650 feet, and Hopkins Airport, only 5 miles inland from the lake, is at an elevation of 791 feet.

The municipality is located in northeastern Ohio on the southern shore of Lake Erie, approximately 60 miles west of the Pennsylvania border. It was founded in 1796 near the mouth of the Cuyahoga River, and became a manufacturing center owing to its location at the head of numerous canals and railroad lines. Cleveland's location on the Cuyahoga River and Lake Erie has been key to its growth. The Ohio and Erie Canal coupled with rail links helped establish the city as a major American manufacturing center. Steel and many other manufactured goods emerged as its industries.

With the decline of heavy manufacturing, Cleveland's businesses have diversified into the service economy, including the financial services, insurance, legal, and healthcare sectors. As a result, Cleveland is the corporate headquarters of many large companies such as Forest City Enterprises, Sherwin-Williams Company, KeyCorp and the Cleveland Clinic, as its largest employer, ranks among America's best hospitals. NASA maintains the Glenn Research Center and Cleveland is home to the Rock and Roll Hall of Fame.

As with most large cities, financial difficulties brought on by suburbanization and other factors changed and challenged the city in the late 1960s and 1970s. Since then the city has worked to improve its infrastructure, diversify its economy, and invest in the arts. As a result, Cleveland is now considered an exemplar for public-private partnerships, downtown revitalization, and urban renaissance.

*City Government**

The Charter of the City of Cleveland was first adopted by the electors at a special election on July 1, 1913, certified to the Secretary of State on July 4, 1913, and took effect on January 1, 1914, a little more than a year after Ohio Constitution Article XVIII, the "Home Rule Amendment," was adopted.

The Legislative authority of the City is currently vested in a 19-member Council. Each Council member is elected from a separate ward and serves a four-year term. The Council fixes compensation of City officials and employees, enacts ordinances and resolutions relating to City services, levies taxes, appropriates and borrows money, licenses and regulates businesses, and other municipal functions. The presiding President of Council, Martin J. Sweeney, was initially elected by the Council members and re-elected as President of Council in November 2009. The Clerk of Council is appointed by Council.

The executive and administrative powers of the City are vested in the Mayor, Directors of Departments and other Administrative Offices provided for in the Charter. Mayor Frank G. Jackson, the Chief Executive Officer of the City, was elected the 56th Mayor of Cleveland for a term of four years and was reelected in November, 2009. Prior to becoming the Chief Executive Officer, the Mayor served as President of Cleveland City Council from 2002 through 2005. In January, 2006, Mayor Jackson began his tenure focusing on ensuring that every child in the city has access to high quality educational opportunities, improving public safety, promoting the region's economy, and revitalizing the city's neighborhoods. Mayor Jackson's expanded focus now includes managing the local impact of the national recession, strategically deploying a citywide municipal wireless broadband network initiative and leading the development of a green sustainable local economy through the efforts of Sustainable Cleveland 2019.

City Ordinance states that the fiscal year of the City shall begin on the first day of January. On or before the fifteenth day of November in each year the Mayor shall prepare an estimate of the expense of conducting the affairs of the City for the following year and shall submit such estimate to Council no later than February 1 of said following year.

The Mayor's Estimate, prepared by the Finance Department with detailed data from the various Departments, contains:

- An itemized estimate of the expense of conducting each department.
- Comparisons of such estimates with the corresponding items of expenditure for the last two complete fiscal years and with the expenditures of the current fiscal year plus an estimate of expenditures necessary to complete the current fiscal year.
- Reasons for proposed increases or decreases in such items of expenditure compared with the current fiscal year.
- A statement from the Director of Finance of the total probable income of the City from taxes for the period covered by the Mayor's estimate.
- An itemization of all anticipated revenue from sources other than the tax levy.
- The amounts required for interest on the City's debt, for sinking funds and for maturing serial bonds and the total amount of outstanding City debt with a schedule of maturities of bond issues.

Upon receipt of the Mayor's estimate Council prepares a Temporary appropriation ordinance for the current expenses of the City, chargeable to the appropriations of the year when passed, sufficient to cover the necessary expenses of the various departments, divisions and offices until the annual appropriation ordinance is in force April 1st.

Transfer of Appropriations

At the end of each Budget Year, a Transfer Ordinance is prepared by the Finance Department and recommended by the Mayor to Council for the transfer of unencumbered balances of an appropriation made for the use of one department, division or purpose to any other department, division or purpose. The annual appropriation ordinance, passed by City Council, establishes the legal spending limits of each division in the two categories of, "personnel expenses", and "other expenses". Adjustments to the budget can only be made within a division and then within each category. Further legislation is needed, in the form of Transfer Ordinances, in order to move budget authority from "personnel" to "other" or vice versa, or between divisions.

City Council must adopt a permanent appropriation measure for the fiscal year by April 1 and, the Cuyahoga County Auditor must certify that the City's appropriation measure does not exceed the amounts set forth in the County Budget Commission's Certificate of Estimated Resources. The City is required by State Law to adopt annual budgets for the General Fund, certain Debt Service and Special Revenue funds, Restricted Income Tax Fund, Rainy Day Reserve Fund, Reserve Fund, and the Schools Recreation and Cultural Activities Fund.

Basis of Budgeting

The City maintains budgetary control on a non-GAAP basis within each division. This means that expenditures can not exceed appropriations for personnel costs (including benefits), and "other costs" within a division without the approval of City Council. Revenues are recorded when received in cash (Budget), as opposed to when susceptible to accrual (GAAP). Expenditures are recorded when paid in cash or encumbered (Budget), as opposed to when goods or services are received (GAAP), and encumbrances are recorded as expenditures (Budget) as opposed to reservation of fund balance (GAAP). Budgetary data are not presented for Proprietary Funds, nor does the City's budgetary process include annual budgeting for grant funds and capital project funds, which are appropriated on a project basis. Appropriations in these funds remain open and carry over to succeeding years (i.e., multi-year) until the related expenditures are made or until they are modified or canceled.

Budgetary Policies, Budgetary Process

The annual cycle begins in January with the passage of the current year budget. On a monthly basis, the Office of Budget and Management prepares, and reviews with management, year end expenditure and revenue projections. The purpose of this scrutiny is to identify any deviations, either in revenues or expenditures, from the original estimates used in the preparation of the budget. These variances are continually analyzed to understand the causes and prepare a year end transfer ordinance or a supplemental ordinance as required during the last quarter of the year.

Estimated expenditures are pre-encumbered and subsequently encumbered prior to release of purchase orders to vendors. Any Pre-encumbrances or encumbrances that exceed appropriations are not approved until the Council authorizes additional appropriations or transfer of funds. Any unencumbered appropriations lapse at the end of each calendar year. City Charter requires that all contracts in excess of \$50,000 shall first be authorized and directed by ordinance of City Council.

County Tax Budget Preparation

During the June timeframe, preliminary financial analyses are performed in preparation for the next year's budget. Inflation factors are established and projections are developed to generate The City's Tax Budget, an estimate of revenues and expenditures for the next calendar year. By Ohio State Law, this document must be approved by the City Council and submitted to the County Budget Commission by July 20 of each year. From this Tax Budget, the County establishes tax levy amounts for the coming year.

In the preparation of the Tax Budget, various factors having an impact upon future revenue and expenditure levels, such as contracts, legal requirements, inflation and economic fluctuations, are studied and quantified. Required inflation factors are developed and used in the development of a Five Year Plan. The Tax Budget is also very useful to the City as it identifies problem areas and provides a preliminary glimpse of expenditures required to fund current service levels in the coming year, along with an estimate of required revenues. Based upon target funding levels established from the Tax Budget, OBM elicits departmental input into the Annually Appropriated budget process via a automated, web-based, budgeting tool called "Performance Budgeting". This new budget module provides Budget stage / phase management capabilities for budget formulation, forecasted salary and benefit projections, and workflow functionality in the budget request process. Each Budget Personnel in the City has access to this module for preparation and submission of budgets.

Budgeting Methodologies

At the City of Cleveland, cost accounting (in general) is the approach for determining and evaluating required costs associated with running the City and projecting variances for different funds. Forecasting for both Expenses and Revenues is accomplished via the use of Regression and Trend analysis, and some Simulation. In the past, the basic Budgeting process / methodology used for Annually Appropriated (year over year) Budgets was Zero Based Budgeting. This means that each Department basically starts from scratch each year and must justify their Budget requests on a year-over-year basis.

Since the implementation of the Performance Budget Module the City now incorporates some Activity Based Budgeting processes in the Divisions of Water, Cleveland Public Power, and Internal Service Funds. This process allows Departments to actually budget at a "lower level" that then rolls up to the Department level (ie each Water Plant inside of the Department of Water could have their own budget).

The City of Cleveland developed the following budget Initiatives to help sustain its economic growth and stability. These initiatives are designed to influence investment in Arts and Culture programs, leverage transportation resources, protect City assets, support youth development and continue to promote the City of Cleveland as a desirable and viable location for growth opportunities:

Sustainable Cleveland 2019

Cleveland will become a model of sustainability and will become a leader in the emerging green economy over the next nine years through the efforts of Sustainable Cleveland 2019. The work began in earnest in August 2009 when nearly 700 people from across greater Cleveland and across the nation gathered at Public Auditorium for a three-day summit focused on Building an Economic Engine to Empower a Green City on a Blue Lake. This effort is focused on supporting business growth, protecting the environment and creating opportunities for individuals to prosper.

Art in Everything! a Cleveland Initiative

Art in Everything! Is a Cleveland initiative that invites everyone to take a closer look at the richness of artistic and cultural diversity in Cleveland. The mission of this initiative is to promote the unique character of the City of Cleveland by providing opportunities to experience the artistic and cultural diversity that represents our city.

Five Year Capital Improvement Plan

The Five-year capital improvement plan was developed “to ensure that each City Department knows what other departments are doing: now and for the next five years” and to insure sustainable design and building practices on all projects. In developing the Five Year Capital Improvement Program, the City obligated to clearly explain the City’s funding limitations. Our challenge in the future years will be to find new funding sources, whether state, federal or private, to make up the difference between our identified needs and our annual general obligation bond resources.

Operations Efficiency Task Force (OETF)

To ensure a better future, Cleveland is in the process of reshaping itself which means a change in the way we think and do business today. Economic conditions have made it impossible to operate under the existing model of government and maintain the current level of service to the City of Cleveland. In order to restore financial stability and increase the level of services provided to our citizens, businesses, and visitors, we have taken on the task of learning to do more with less by changing the way we do business. The purpose of the OETF, therefore, is to

- ♦ achieve and maintain financial stability;
- ♦ improve the efficiency and effectiveness of City services; and
- ♦ create a work environment focused on providing excellent customer service.

The Future of Public Safety

The mission of the Department of Public Safety is to effectively provide a wide range of services which protect the life and property of the community. The department meets its objectives by providing efficient and effective service, establishing public trust through the development of strong partnerships within the community, and by focusing on public safety and improving the quality of life in Cleveland neighborhoods.

Mayor Frank G. Jackson Scholarship Program

Mayor Frank G. Jackson established the Student Scholarship Program to support the City of Cleveland employees and Cleveland Metropolitan School District students who are interested in pursuing a college education.

Clean Cleveland

Clean Cleveland initiative is a systematic delivery system designed to deliver service more efficiently and improve quality of service to Cleveland neighborhoods, without spending more money. Departments and divisions coordinate across boundaries to provide services, including, but not limited to:

health inspections	bulk item and litter pick-up
vacant lot grass cutting	abandoned structure board up or demolition
vacant structure clean-up	catch basin cleaning
chuckhole patching	waste collection
street sweeping	street light and traffic signal repair
park service visits	graffiti removal
roadside debris pick-up	hydrant painting
utility cuts	

Citywide Municipal Wireless Broadband Network Initiative

The City is deploying a citywide municipal WiFi network to solve immediate, specific, operational needs in a more cost-efficient way. A wireless network will help the City deliver better services by providing a safety environment for our citizens by monitoring high crime areas; arming our social service professionals with information in the field; issuing permits and violations in real-time, and offering other City services to support mobile workers with immediate information to make quicker decisions.

Making Cleveland a City of Choice: Strategy for Development and Revitalization

Making Cleveland and its neighborhoods “communities of choice” is a principal goal of the administration of Mayor Frank Jackson. A community of choice is a place that residents and businesses and visitors choose because of the exceptional quality of life and amenities that it offers. The departments of Economic Development and Community Development are taking the lead role in implementing the recommendations for development and revitalization.

Connecting Cleveland 2020 Citywide Plan

The Connecting Cleveland 2020 Citywide Plan is the comprehensive plan for the future of Cleveland and its neighborhoods. It seeks to create great neighborhoods by creating “connections” between people and places and opportunities. Creating connections means more than developing buildings. It means developing people and developing communities as well. It means linking the “physical” and the “social” in order to create a community that is truly viable and sustainable. The Connecting Cleveland 2020 Citywide Plan proposes not only to build houses but to build safe, vibrant neighborhoods. It is a plan that proposes not only to create shopping centers but to create mixed-use “town centers” that can become the focus of community life. And it is a plan that proposes not only to create jobs but to make job opportunities available to all Clevelanders.

Connecting Cleveland: The Waterfront District Plan

On December 17, 2004, the Cleveland City Planning Commission unanimously adopted a comprehensive Waterfront District Plan for Cleveland's shoreline. That Plan created an overall vision to shape the lakefront as the most vital element in the transformation of Cleveland as a place to live, work, and play and aims at enhancing Northeast Ohio's overall regional competitiveness in the 21st century.

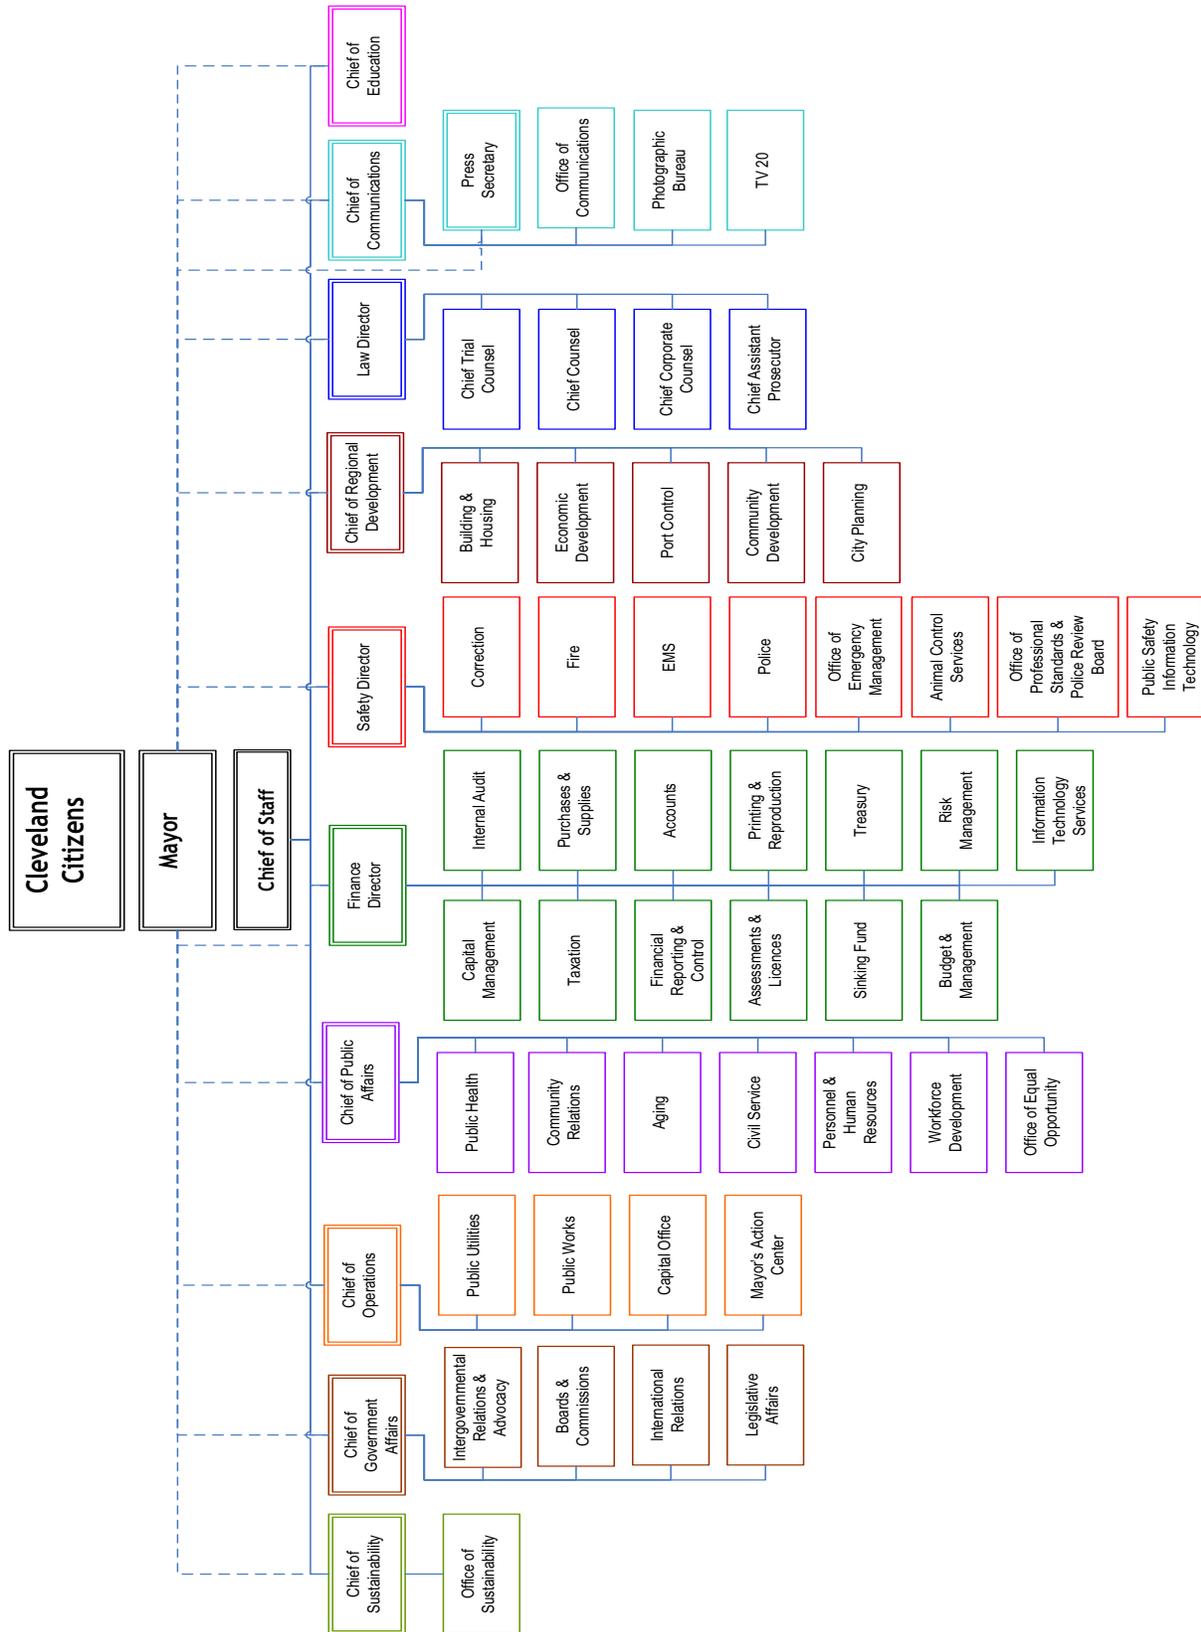

While the Plan embodies a 50 year vision that consists of projects both large and small, numerous projects are underway or have already been completed, including the following:

- North Coast Harbor Pedestrian Bridge secured by Federal funding to develop an iconic pedestrian bridge linking the finger pier from Dock 32 and the southwest corner of Voinovich Park fully connecting the existing waterside promenade around North Coast Harbor.
- Dike 14 is an 88-acre parcel of "made land" that protrudes into Lake Erie approximately four miles east of downtown Cleveland, off Gordon Lakefront State Park. It is a Confined Disposal Facility (CDF) created through the placement of materials dredged from the bottom of the Cuyahoga River.

Automated Waste Collection Program

The new Automated Waste Collection and Curbside Recycling Pilot Program began in the City of Cleveland late 2009. The division of Waste Collection is testing the use of vehicles that pick up trash automatically by mechanical arms and semi-automatically by vehicles that will include a tipper on the back to lift and tip the containers into the truck. The City provides each resident participating in the Pilot Program with a 96 gallon cart for garbage and a 64 gallon cart for recyclable items. For the City, this translates to reduced costs, reduced employee injuries, increased productivity, cleaner curbs, and increased recycling participation.

Operating Budget

The fund structure makes it difficult to define the City's budget because, in fact each fund has its own budget. federal and State grants not only have their own funds, but operate on a fiscal year determined by the grantor agency rather than the City's fiscal year (which coincides with the calendar year). The chart below does not include grants for the above reason and eliminates inter-fund subsidies, Internal Service, and other miscellaneous funds in order to avoid "double counting". Capital Projects and Debt Service are not included in the operating budget. Details to support the various operations are shown in the Program Section of this report.

Office of Capital Projects

This newly formed group consists of the Divisions of Engineering and Construction, Architecture, Research, Planning & Development, and Real Estate and is responsible for the planning, engineering and inspection of capital projects and investments. All Capital Improvement Projects (CIP) in the City now fall under this office. Benefits from these centralizing efforts are:

- Eliminates duplication of capital management services
- Utilize concepts of portfolio management (investments made from clear principles)
- Stronger project management through focused use of staff resulting in faster project delivery; saving money and time

The adopted Vision of the Office is “To be best in class in municipal capital project delivery and right of way management.”

The mission of the Office of Capital Projects is to provide for the planning, designing, construction and preservation of the City of Cleveland’s facilities and infrastructure through:

- Collaborative comprehensive planning
- Leadership in management
- Excellence in sustainable design and technical expertise
- Quality construction based on fair administration, integrity and professionalism.

Overview

The construction and maintenance of public infrastructure is one of the primary responsibilities of the City of Cleveland. Capital planning that builds and preserves sound transportation, neighborhood infrastructure, and technology systems along with citywide facilities and major equipment serves as the physical foundation for public services, as well as a key component of potential future community growth and economic development.

A comprehensive Five Year Capital Improvement Plan (CIP) was developed by the City in 2007 as a foundation from which to build and invest in the highest priority capital needs of the City. This plan is integrated with long-range planning through the Connecting Cleveland 2020 Citywide Plan described in another section.

Sources of Capital Funding

Cleveland’s capital program is funded by a variety of local, state, federal, and other sources dependent on a range of factors. The two primary methods of local funding are General Obligation (GO) bonds and the City’s Restricted Income Tax (RIT). The RIT was established in 1981 and receives one-ninth of the City’s income tax collections, which are dedicated exclusively to capital improvements, debt service, Subordinated Income Tax, and TIFS.

Certain special capital projects are funded by money from the State of Ohio. The Ohio Department of Transportation (ODOT) pays a share of the cost of numerous road and bridge projects either from State funds generated by highway user fees, such as gasoline taxes or license fees, or by acting as a “pass through” for federal funds from the Highway Trust Fund. Other significant projects receive partial funding from the State’s biennial capital budget. The Ohio Public Works Commission also makes Issue 2 funds available for certain infrastructure improvements based on a priority ranking system.

Cleveland relies heavily on federal capital funding programs to finance projects. The most significant of these are programs for roads and bridges which are a part of the federal Highway Trust Fund. The five year program also anticipates federal funding from the Federal Aviation Administration and other federal agencies.

Capital Improvement Plan

Uses of Capital Funding

Capital expenditures are those which cost more than \$5,000 or have a useful life of at least five (5) years. The capital projects delivered through the City's CIP typically fall into the following categories.

- Transportation
- Infrastructure Rehabilitation

Upgrades to City facilities are typically paid through local funding sources and federal transportation aid. Development activities are commonly funded by

Community Development Block Grants (CDBG) through the U.S. Department of Housing and Urban Development. Finally, the City's enterprise funds have significant infrastructure needs that are financed through charges for services (i.e. Water, Electric, Airport, Water Pollution Control).

Capital projects are selected through a prioritization process that ranks projects based on the following criteria:

- Preservation and revitalization of Cleveland's neighborhoods, particularly new housing development
- Cost effective provision of basic services
- Economic development and job creation
- Upgrade of existing facilities

The last five years have presented challenges in managing the City's budget. Challenges to a balanced 2010 budget were remedied as result of the following concessions:

- 3.85% Pay reduction for Non Union Employees (*unpaid furlough days*)
- Pay reduction and / or other concessions accepted by 23 out of 34 bargaining units averting 246 layoffs.
- One tme elimination of longevity

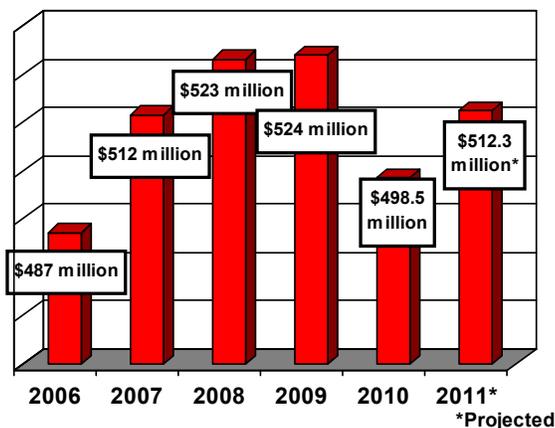

The City of Cleveland continues to be impacted by the local, national and global recession / depression.

- Economic recovery not predicted until late 2012
- High unemployment resulting in no growth in income tax.
- Potential \$8 billion State budget deficit which is expected to drastically impact and reduce the Local government fund received from the State.
- Lower than anticipated revenues from Property Tax, Grants, Waste Collection.

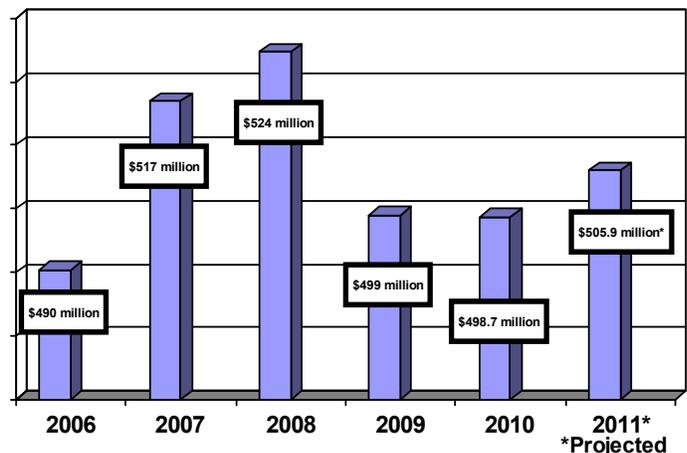

At the time of this analysis, an economic recovery was not predicted until 2012. Revenues (income tax, property tax) are expected to remain flat. We, therefore, continued to monitor and reduce expenditures through out the 2010 budget year in order to ensure a balanced budget for fiscal 2011.

ver Balance

The difference between revenue and expenditures is being filled by a carry over balance of \$6.4 million.

Although the 2011 Temporary Budget submitted to Council restored the concessions used to help balance the 2010 Budget, that budget is not sustainable for the remainder of 2011. The current 2011 plan relies on the following initiatives to help close the budget gap:

- One-time revenues from the sale of property
- Cost savings due to the restructuring of Operations Clusters which merges the Departments of Public Service and Parks, Recreation and Properties
- Savings due to attrition resulting from layoffs and other unfilled positions
- Continue energy use reduction due to operation efficiency efforts
- 10% reduction in “below the line” expenses
- Continue efforts to increase revenue, including results of a new fee stud

Fund Structure

The City of Cleveland maintains numerous funds, each with its own specific purpose and revenue sources. The purposes are defined by law and all expenditures must be in accordance with the purpose designated for the specific fund. For operating details see Section II.

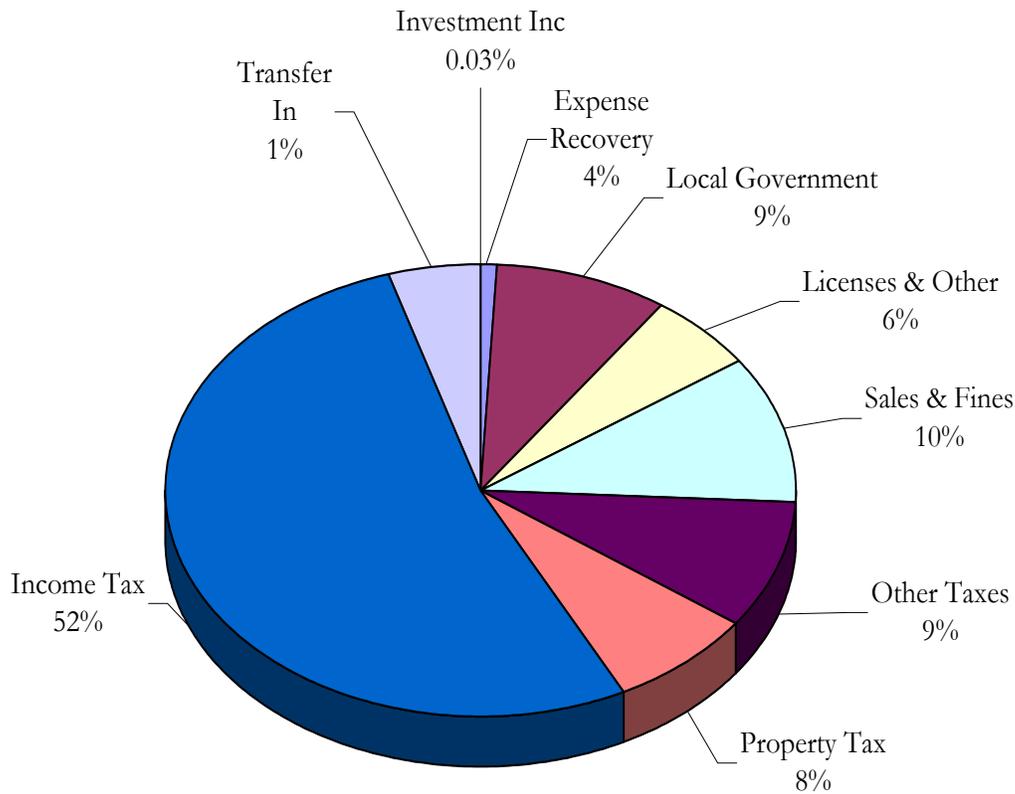

FUND	PURPOSE	REVENUE
General	Provides for general operating expenses of the city.	State and local taxes, service charges, licenses and permits, and fines.
Special Revenue Restricted Income Tax	Capital improvements and debt service payments.	One-ninth of city income tax collections.
Streets	Street maintenance and repair.	State gasoline and automobile license tax, permit fees and operating transfer from the General Fund.
Reserve Fund	Reserves for economic fluctuations for general operating expenses.	Excess of revenues over expenditures in General Fund.
Rainy Day	Reserve for economic downturns and one time obligations.	Excess of revenues over expenditures in General Fund.
Debt Service	Sinking Fund pays and records transactions involved in debt financing.	Property tax, Restricted Income Tax and interest earnings.
Enterprise Major	Provide water, sewer, electric services and airport facilities.	User fees.
Small	Convention Center & West Side Market, Cemeteries, Golf, Parking Facilities, East Side Market, Stadium.	User fees and some General Fund operating transfers.
Internal Service	Telephone Exchange, Information Systems Services, Motor Vehicle Maintenance, Printing, Storeroom.	User fees (charged to City Divisions).
Agency	Central Collection Agency for collection of income taxes.	User fees charged to city and suburbs for collection of income tax.

REVENUE

The General Fund supports most basic operations including Police and Fire protection, Emergency Medical Service, Waste Collection, Recreation, Health Centers, Park Maintenance, Building and Housing regulation and Municipal Courts. It also includes support services such as Personnel, Finance and Law. Funding for these activities is derived from a variety of revenue sources which include taxes, licenses and permits, fines and user fees. These are described in greater detail in the following section.

The 2011 General Fund budget is comprised of \$512.3 million in expenditures. The 2011 proposed revenues are estimated at \$506.0 million.

General Fund Revenue Distribution

REVENUE

As the previous chart indicates, the City's Income Tax is the largest source of revenue for the General Fund. It is generated by a 2% tax on wages and earnings, not only of Cleveland residents but also of those working within the City, regardless of place of residence. Of total collections, eight-ninths (88.9%) flows to the General Fund while one-ninth (11.1%) is placed in a Restricted Income Tax Fund to be used for debt service payments and capital expenditures. Because the Income Tax makes up such a large proportion of the General Fund, the amount of financial resources available to provide City services is directly related to the health of the local economy (see Economic Outlook).

The Local Government Fund and Local Government Revenue Assistance Fund sources are State of Ohio revenue sharing programs in which cities share in the collection of the State Income, Sales, Corporate Franchise and Public Utilities Excise Taxes. These funds are distributed in two ways - 9/10 to counties divided among all towns, villages and municipalities, and 1/10 directly to cities which collect an income tax. The Local Government Revenue Assistance Fund went into effect July 1, 1989. Based on the State of Ohio distribution formula 4.2% of total tax collections are allocated to the Local Government Fund and 6% of total collections are allocated to the Revenue Assistance Fund.

The third largest General Fund revenue source is generated by County property tax collections. In 2006, the Cuyahoga County reappraised all property values (required every six years).

Revenues from fines and forfeitures include collections from parking violations and court levied civil and criminal fines. This revenue is directly related to the number of parking and moving violations issued by the City and court fines and costs.

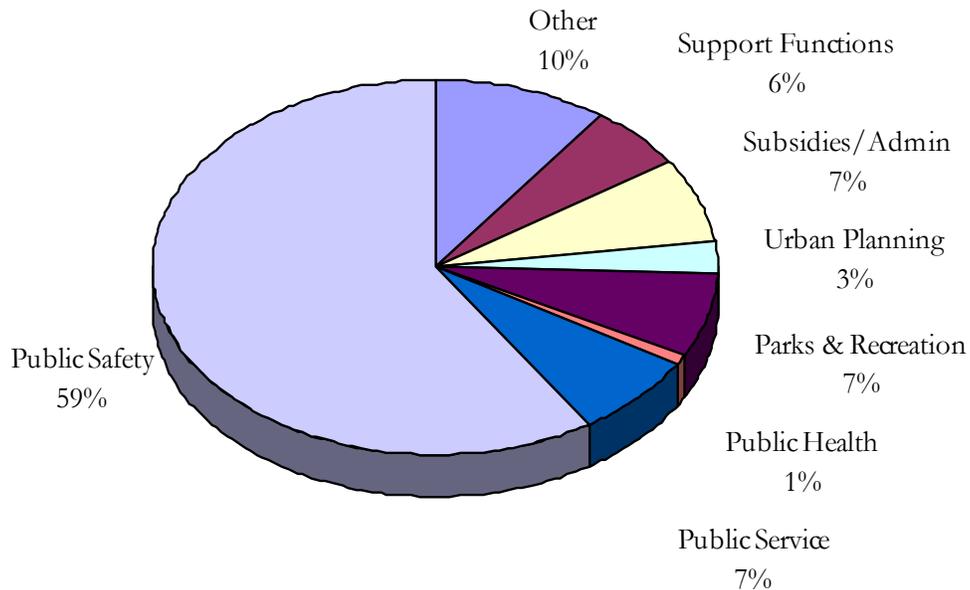

The Other Tax Category now includes both locally and state collected sources. Locally, the City receives Admission Tax for most entertainment events scheduled in the City as well as a tax on the leasing of motor vehicles. Both of these taxes were previously increased as part of an overall funding plan for the reconstruction/rebuilding of Cleveland Municipal Stadium. The Motor Vehicle Lessor Tax was raised from \$4 to \$6 per transaction as of August 1, 1996. The Admission Tax was increased from 6% to 8% effective January 1, 1997. The State distributes a portion of Estate, Liquor and Cigarette taxes to their municipality of origin.

The Licenses and Permits Category includes sales and charges for service which are charged to users of City services. Examples are fees for emergency medical service, medical care at the City's health centers and copies of birth and death certificates, and various miscellaneous sources, central service costs and expenditure recoveries are part of this category.

EXPENDITURES

The City delivers tax-supported services to its residents in several basic program areas including Safety, Service, Parks and Recreation, Health, and Urban Planning and Development. The following chart shows that well over half of the General Fund budget (59%) is devoted to Public Safety, with 7% of all funds going to Public Service (including Waste Collection and the General Fund Operating Transfer to Streets) and 7% to Parks and Recreation. Only 6% is devoted to support functions such as financial, legal and personnel administration.

State and Local Government Fund

Local Government fund is a state of Ohio revenue sharing program established in 1934 in which cities share in the collection of the state income, sales, public utility excise tax, and corporate franchise taxes. The distribution basis is basically a function of population and property tax values.

Other Revenue Terms

Certificate of Estimated Resources: An original Certificate of Estimated Resources, received from the County Auditor, is based on an estimate of the year-end unencumbered balances and the estimated revenues for the upcoming calendar year as reflected on the tax budget. An amended certificate of estimated resources is received, by the City, after the tax rate resolution is certified to the County and after the unencumbered balances/revised revenue estimates are certified to the County.

Mills: Local Property tax rates are always computed in mills. One mill costs the property owner \$1.00 for every \$1,000 of assessed valuation each year. In our example, the \$100,000 will produce \$35 in tax revenue for each mill.

In Ohio, millage is referred to as "inside" millage and "outside" millage. Inside millage is the millage provided by the Constitution of the State of Ohio and is levied without the vote of the people as established very early in the State's history. The inside millage rate is limited to ten mills in each political subdivision. Public schools, cities, counties and other local governments are allocated a portion of the ten inside mills.

Enterprise Funds are used to account for operations that function in a manner similar to private business enterprises and are financed primarily by user fees to the general public. The City of Cleveland operates two categories of enterprises. Major Enterprises, consisting of Public Utilities and Airports, are totally self-supporting, whereas the Small Enterprise group, consisting of Cemeteries, Golf Courses, Municipal Parking Facilities, the Cleveland Convention Center and the West Side Market, do not maintain full accrual accounting and may require tax support.

Landmarks Commission

ROBERT KEISER, SECRETARY

Mission Statement

The Landmarks Commission is charged with the preservation of Cleveland's heritage of historic buildings, sites, and districts. The Commission identifies architecturally and historically significant buildings, sites, and districts as local landmarks, and it ensures that appropriate changes occur to those properties, according to the Secretary of the Interior's Standards for Rehabilitation.

The Landmarks Commission is a seven-member board appointed by the Mayor and City Council President with the charge to safeguard the City's heritage through the preservation of historic buildings and districts. The Commission is administered by two staff members. The Commission recommends buildings, sites or historic districts that are eligible for local designation as landmarks. It follows established criteria listed in the Landmarks Ordinance, Chapter 161 of the Codified Ordinances. Exterior changes to individual Landmarks or properties within historic districts are reviewed by the Landmarks Commission as part of the building permit process. Neighborhood based design review committees act as advisory committees to the Landmarks Commission. The Commission staff conducts a continuing historic building and site survey of Landmark and National Register designation. The Cleveland Landmarks Commission acts as a Certified Local Government Grant in coordination with the State Historic Preservation Office and the National Park Service in National Register designation and cases involving 106 Environmental Reviews.

PROGRAM NAME: PERMITS AND CASES

OBJECTIVE: The Landmarks Commission staff provides support to the Landmarks Commission for changes to historic property. The Landmarks staff reviews and approves many smaller cases on administrative basis. It prepares the larger cases for hearings before the Landmarks Commission, making recommendations on action that is to be taken.

ACTIVITY: The Landmarks staff prepares agendas, minutes, and evidence for Commission meetings. The staff meets with applicants about proposed changes to buildings that have been locally designated. The Commission makes decisions regarding the granting of Certificates of Appropriateness for the issuance of building permits. Staff maintains records of Commission decisions.

PROGRAM NAME: SURVEY

OBJECTIVE: The Landmarks Commission staff identifies buildings, sites, and historic districts for the purpose of Cleveland Landmark and National Register designation. Historic designation recognizes the importance of the property to the City, and may make historic federal and state tax credits.

ACTIVITY: The Landmarks Commission conducts architectural surveys to assess the significance of historic buildings, sites, and districts and promote historical significance of Cleveland neighborhoods, on a continuing basis.

PROGRAM NAME: DESIGN REVIEW

OBJECTIVE: When large historic districts are created the Landmarks Commission creates local design review committees. The Design Review Committee makes recommendations to the Commission regarding design issues.

ACTIVITY: The Landmarks Commission staff attends the local design review committees. It prepares staff reviews. Prepare staff reviews of designs submitted to Design Review Committees. The Commission staff is also involved in the training and staff support to Design Review Committees.

To promote amicable relations among the racial and cultural groups within the community.

The Community relations Board is responsible by City Ordinance for improving cross-cultural relationships in a city with a population, which reflects a wide diversity of racial, ethnic and religious heritage. The mission of the Board is to resolve community conflicts and ameliorate inequities based on racial and social biases, and develop pro-active strategies for affirmative actions and programs that promote multi-cultural harmony. The board's emphasis is upon the implementation of proactive activities that promotes diversity and unity. The board responds to resident complaints, investigates sources of community conflict and provides planning assistance and alternative dispute resolution techniques to residents and organizations for resolving neighborhood concerns and appreciating the value and importance of cultural openness and diversity to the well being and future development of the City of Cleveland.

Program activities focus on the most commonly identified concerns of the community which include police-community cooperation, youth and young adult intervention, culturally and socially segregated housing patterns and relationships involving our schools, youth and neighborhood residents. Primary functions are coordinating police-citizen committees; mediation, conciliation and alternative dispute resolution services; helping to develop community and human relations development activities; administering the City's law enforcement and community assistance protocol for the prevention of ethnic intimidation and response to victims; promoting multicultural arts and educational events; monitoring police professional standards and practices policy; planning and facilitating human relations training for police, city employees and community groups; coordinating multi-cultural dialogue groups; provide crisis response and violence interruption; referring youth to healthy alternatives.

PROGRAM NAME: COMMUNITY OUTREACH

OBJECTIVES: To promote cultural harmony and mutual understanding in the City of Cleveland by helping residents implement proactive strategies for resolving community concerns and developing mechanisms for people of all religious, racial or ethnic backgrounds to cooperatively improve the quality of life citizen to citizen, neighborhood to neighborhood and building sustainable relationships from Cleveland to the world.

ACTIVITIES: The Community Relations Board (Hereinafter referred to as the "CRB") provides planning assistance for groups and agencies who seek to promote positive social and cultural relationships in the community. The CRB investigates the sources and conditions of problems and complaints that are disruptive to the quality of life in the city neighborhoods, especially when an individual or group is violated because of their protected class (race, ethnicity, religion, sexual orientation, gender identity, familial status, etc.) The CRB assists in coordinating fair and equitable service delivery to Cleveland's multicultural and diverse population. The CRB administers the priority protocol for preventing and responding to racial and ethnic violence and intimidation in coordination with the police, prosecutor's office, the municipal and county courts and support service agencies. The CRB coordinates resident and organizational involvement through diverse and multi-cultural dialogue groups. The CRB maintains liaisons to individuals and groups interested in addressing the concerns and serving the special needs of various groups from the City of Cleveland's multicultural and diverse populations. The CRB establishes support networks and facilitate relationships to attain sustainable community networks. The CRB investigates and provides referral services for any complaint of discrimination based on the City of Cleveland's protected classes. The CRB provides conciliation services on referral from citizens, community organizations and institutions, the police and other city agencies.

PROGRAM NAME: HUMAN RELATIONS CIVIL RIGHTS TRAINING AND COMMUNITY EDUCATION

OBJECTIVES: To support and direct members and staff in fulfilling the community relations goals of the Board and city government. To develop the skills of city employees and community groups that will increase community cooperation and minority participation in the productive life of the City. To increase public awareness of and confidence in the role of the Community Relations Board and City government for solving problems that strain inter-group relationships. To reduce racial and cultural stereotypes which create social inequalities, conflicts and instability.

ACTIVITIES: Perform curricula and program design. Provide human relations in-service training for police and city employees. Conduct human relations workshops for community groups and agencies. Provide mediation training for community and youth serving organizations and schools. Provide research evaluation, planning and administration. PROGRAM NAME: YOUTH COMMUNITY DIVERSION/CRISIS & COMMUNITY INTERVENTION (OPERATION FOCUS)

OBJECTIVES: This program is a joint effort between the Cleveland Division of Police and the Cuyahoga County Juvenile Court System. The program's purpose is to develop and administer accountability-based sanctions for first-time juvenile offenders of misdemeanor and status offenses. We believe that early intervention in the lives of first-time offenders will prevent some juveniles from committing future violations. The CRB has also initiated "Operation Focus." This intervention strategy is modeled after an evidence-based strategy utilized in other cities and recognized by the U.S. Dept of Justice best practice.

ACTIVITIES: Caseworkers administer accountability-based sanctions for first-time juvenile offenders of misdemeanors and status offenses. This program offers early intervention for youth to prevent future violations. Caseworkers also assess the needs of each individual child and family. They refer youth and their families to appropriate community resources and services. They give families options to deal with the difficulties their children are facing. Street outreach workers (Peacemaker Alliance) serve as violence interrupters by responding to hot spot areas to mediate between feuding groups and prevent youth violence. The Community Relations Board also conducts community interventions (Call Ins) to send a clear message to Group Member Individuals. The message is clear, "gun violence and open air drug markets will stop or their will be group-based accountability and sanctions.

Cleveland Municipal Court - Judicial Division

RONALD B. ADRINE, ADMINISTRATIVE AND PRESIDING JUDGE

Mission Statement

To ensure the rule of law, administer justice and to improve public safety, by providing a forum where persons obtain the orderly resolution of disputes and related services; all done in a fair, impartial, professional, courteous, and timely manner.

The Cleveland Municipal Court is a court of record having jurisdiction in law and equity pursuant to the Ohio Revised Code. The Court has territorial jurisdiction over the City of Cleveland and the Village of Bratenahl. The Court may determine misdemeanor violations of both the City of Cleveland Ordinances and the state of Ohio statutes. The court conducts preliminary hearings and sets bonds in felony cases committed in the City of Cleveland. In civil matters, the Small Claims Division of the Court can determine actions where the amount in controversy does not exceed \$3,000.00. The General Division of the Court can determine civil cases where the amount in controversy does not exceed \$15,000.00. These civil cases can include, but are not limited to, actions for the recovery of property, injunctions, contracts, personal injury, collection proceedings, and transferred judgments.

SELECTIVE INTERVENTION PROGRAM (SIP)

The Selective Intervention Program, which started in 1984, is a diversionary program for criminal defendants with no prior criminal record or pending criminal cases. The program, administered by the Probation Department, involves participants who have not been found guilty and cannot have entered a plea to the pending charges. SIP is an opportunity to have their case dismissed by the court to avoid a conviction, provided the offender is eligible to participate in the program, complies with the conditions of the program and pays the SIP participation fee

GET ON TRACK

The Cleveland Municipal Court, now in conjunction with Cuyahoga Community College, Employment Connection, Project LEARN, Seeds of Literacy, Ameri-I-Can and the Parma and Lakewood City School Districts launched *Get on Track in 2006*, a program designed to facilitate eligible young men and women in becoming responsible adults and law-abiding, contributing members to society. The purpose of the program is to help young adults realize that education, employment, character development, a positive attitude and possessing a valid license for drivers are keys to a more successful and productive lifestyle.

Get on Track, under the direction of Judge Emanuella Groves and Judge Lauren C. Moore, targets those charged with traffic or misdemeanor offenses. Participants must commit to the program for up to 18 months.

So far over 250 people have graduated from the *Get on Track* program and about 40 people are entering the program each month. Because of the strong interest, the court has assigned two probation officers to work exclusively with *Get on Track* participants.

DOMESTIC INTERVENTION, EDUCATION AND TRAINING (DIET)

The Cleveland Municipal Court is proud to be named recipient of a \$216,000.00 grant from the Community Corrections Act, with the objective of diverting 285 offenders charged with domestic violence related offenses to a domestic abuse education program. Offenders must attend one, two hour session per week for 16 weeks. Each session, which averages 15 participants, is being led by two qualified staff facilitators who stress one of the eight themes: non-violence, non-threatening behavior, respect, support and trust, accountability and honesty, sexual respect, partnership and negotiation, and fairness.

The DIET program also serves the Cuyahoga County Court of Common Pleas and 12 municipal courts, including Bedford; Berea; Cleveland Heights; East Cleveland; Euclid; Garfield Heights; Lakewood; Lyndhurst; Parma; Rocky River; Shaker Heights and South Euclid.

WEED AND SEED

The Cleveland Municipal Court is proud to continue its involvement in the Weed and Seed Program, now in its sixth year of operation. The program targets an area to “weed” out criminals and “seed” the area with services and programs that would benefit the community. Weed and Seed currently under the direction of Judge Charles Patton and Judge Anita Laster Mays, has partnered with the Cleveland Police Department’s Fourth District and Bridgeway Inc. This year the focus is on substance abuse and next year it will include solicitation and prostitution.

DRUG COURT

In 1998, the Cuyahoga Court Common Pleas Court, in cooperation with the Cleveland Municipal Court, accepted a federal grant in the amount of \$385,000.00 to establish a Drug Court. The Greater Cleveland Drug Court is a special docket of the Cleveland Municipal Court, currently under the direction of Judge Anita Laster Mays.

Through the program, eligible Drug Court defendants can be linked with substance abuse and/or mental health treatment services, as necessary. Treatment services include substance abuse assessment, pretreatment groups, primary outpatient treatment, residential treatment, and aftercare. Mental health services are available for offenders who are dually diagnosed with substance abuse and mental health issues through state funding and the Cuyahoga County Mental Health Board. The program also provides mandatory drug testing and cooperation with the Sheriff’s Department to apprehend defendants who fail to appear for court or scheduled treatment services.

Over 900 people have successfully completed the Greater Cleveland Drug Court Program, which is a benefit not just for the individuals involved, but also for the community they live and all taxpayers. Average treatment typically costs approximately \$3,000, while six months of incarceration averages \$14,000.

Because of the success with Drug Court, the Cuyahoga County Common Pleas Court has adopted the program, which is currently under the direction of the Honorable David T. Matia.

MENTALLY DISORDERED OFFENDERS PROGRAM (MDO)

The “MDO” Program operates in cooperation with Recovery Resources to provide intensive supervision to mentally disordered offenders. The Cleveland Municipal Court has recognized the need for specialized services and supervision for mentally ill offenders to obtain the services necessary for these individuals to function as healthy, law-abiding citizens and to reduce the likelihood that they will come back into the criminal justice system as offenders.

The Judges of the Cleveland Municipal Court identify probationers with possible mental illness. An assessment of the probationer is made by the Municipal Court Probation Department Psychiatric Unit to determine if the probationer is a candidate for the MDO program, currently under the direction of Judge Kathleen Ann Keough

In conjunction with Recovery Resources, offenders may be linked to a variety of programs and agencies. Certain offenders may be offered a full range of services provided by Recovery Resources, including forensic psychiatry, intensive outpatient substance abuse treatment for dually diagnosed offenders, as well as partial hospitalization services.

The MDO program continues to grow at a rapid pace as the number of individuals coming into the criminal justice system with mental health issues increases.

TRAFFIC INTERVENTION PROGRAM (TIP)

Currently one out of every four traffic cases before the Court involves driving without a valid license or driving with a license under suspension. The Cleveland Municipal Court “TIP” program is designed to identify and assist traffic offenders with driver’s license problems who pose a risk to the public. The goal is to increase the number of licensed, insured drivers on the road. Employees in the TIP program assist defendants in obtaining information through direct links to the Bureau of computer. This information can include driver’s license status, history, and reinstatement fees/requirements. This and TIP eliminates unnecessary continuances of defendants’ cases and saves the defendant the time waiting in line at the local BMV offices.

MOCK TRIAL

The annual Mock Trial Competition, sponsored by the Cleveland Municipal Court, the Cleveland Metropolitan School District and the Cleveland Bar Association, will be going into its 15th year now under the direction of Judge Anita Laster Mays and Judge Lauren C. Moore. The program, started by Former Judge Robert J. Triozzi, involves 250-300 Cleveland students and their teachers who end up spending an entire day at the Justice Center presenting both sides of a hypothetical case that is based upon similar cases before the court, such as stalking, driving under the influence, and children getting access to firearms. The ultimate aim of the Mock Trial Competition is to improve student listening, speaking, and reasoning skills.

TRUANCY ENFORCEMENT

In an effort to keep children focused on their education, The Court began a relationship with the Cleveland Metropolitan School District in their effort to crackdown on truancy, which resulted in several hundred citations. The Court, with assistance from Judge Charles L. Patton Jr., consolidated the cases and ended up dismissing many of them after the parent attended a responsibility and accountability workshop conducted by the Partnership for a Safer Cleveland.

PROJECT HOPE

Project HOPE (Holistic Opportunities and Preventive Education) is the Cleveland Municipal Court's Solicitation/Prostitution Offender Intervention Program. Under the direction of Judge Angela R. Stokes, Project HOPE is committed to intervening in the criminal justice process at the earliest possible time to identify potential qualified candidates for a specialized, intensive diversion and to help these offenders help themselves by providing a temporary safe haven offering permanent life tools to permanently break the cycle of prostitution.

TOWN HALL MEETINGS

The Cleveland Municipal Court remains committed to continuing our annual Town Hall Meetings in an effort to give citizens a forum for expression and raise public consciousness and satisfaction with the court. We have conducted the Town Hall Meetings in conjunction with the Clerk of Courts office, which help promote the gatherings throughout the City of Cleveland.

INTERPRETERS UNIT

In recognition of the increasing diversity of our citizenry, the Cleveland Municipal Court has moved forward to enhance the quality of the interpretive services provided to defendants and other individuals involved in the court system, through increased evaluation and training for staff members providing interpretation in Court proceedings. The Court now has three employees, who provide interpretation services so we can better serve the rapidly growing Hispanic community, as well as the many diverse ethnic origins that make up the city.

COMMUNITY ORIENTATION PROGRAM (COP)

The Cleveland Municipal Court has partnered with the Community Relations Board and Attorney William Dawson to create the Community Orientation Program (COP), designed to help offenders explore the causes and effects of their actions, which often lead to negative interaction with the legal system. The program's purpose is to educate individuals of their rights and responsibilities when interacting with the police and to also encourage positive behavior. Knowing their rights and responsibilities will create better understanding and improved relationships between the offender and the police.

Participants are referred three ways; by the Cleveland Municipal Court Probation Department as a condition of probation, participation in the Selective Intervention Program or direct placement by the sentencing judge. The two hour sessions are conducted the first Wednesday on alternating months. Since December 2008, 123 offenders have completed COP.

CLEVELAND JUSTICE

The Court continues it's a very successful partnership with Channel 20 in the production of *Cleveland Justice*, a half hour program that gives viewers an insight on what happens in our courtrooms on a daily basis. A different judge is featured each week and the program airs twice a day. Reaction has been very positive and we plan to continue and expand this partnership so viewers can better understand the courts role in the community.

VETERANS COURT

The Cleveland Municipal Court has just assembled a team of people including court employees, a prosecuting attorney, defense attorney and evaluator, charged with designing and implementing a specialized court for veterans, which would be overseen by Judge Lynn McLaughlin-Murray. The Court is currently working on a request to the Ohio State Bar Foundation to hire a consultant who would research the scope of the problem and discuss ways to best serve the veterans in the court system.

RAYMOND L. PIANKA, JUDGE

Mission Statement

To improve the quality of life for citizens living and working in the City of Cleveland by enforcing City ordinances, State, and Federal laws.

PROGRAM NAME: SELECTIVE INTERVENTION PROGRAM ("SIP")

OBJECTIVE: To assist first time offenders who are owner occupants in bringing their property into compliance with the City's ordinances within a proscribed period of time, to avoid a criminal record resulting from the prosecution process.

ACTIVITY: The Housing Court Judge refers cases to the selective intervention program from the regular criminal docket. SIP cases are supervised by an assigned Housing Court Specialist, who assists the defendant in developing a compliance schedule, evaluating available resources, and obtaining available assistance through City, County and neighborhood programs. The Specialist supervises the defendant's efforts at bringing the property into compliance with City ordinances, reporting to the Court regularly on the defendant's progress. Recent problems with the administration of certain City programs make the Specialists' attempts to enlist assistance for the defendants more challenging.

PROGRAM NAME: WARRANT/CAPIAS PROGRAM

OBJECTIVE: To locate defendants who fail to appear in court, and bring them before the Court to answer criminal charges.

ACTIVITY: The Warrant/Capias program is staffed by Housing Court Bailiffs and a Warrant Capias Coordinator. Staff members search public records, contact neighbors and other individuals, visit properties, and follow up on leads to locate absent criminal defendants. The Housing Court Judge determines whether those individuals are arrested or given the opportunity to reschedule their court date without arrest. This program previously benefited from the expertise and efforts of two part-time officers who had previous police experience; however, due to budget cuts those officers were terminated.

PROGRAM NAME: NUISANCE ABATEMENT/"TOOL KIT"

OBJECTIVE: To educate the public regarding options available to compel the repair or demolition of nuisance properties in their neighborhoods and to fairly and efficiently adjudicate cases brought regarding these properties.

ACTIVITY: In response to requests from the community, the Court has developed written materials for neighbors interested in participating in the code enforcement process. The Court conducts regular meetings with residents interested in the issue of code enforcement, with presenters discussing relevant issues including receivership, home maintenance, court procedure, mental health issues presented by defendants, etc.

PROGRAM NAME: RECEIVERSHIP/NUISANCE ABATEMENT CASES

OBJECTIVE: To fairly and efficiently adjudicate the receivership and nuisance abatement cases brought in the Housing Court.

ACTIVITY: Receivership actions are filed by neighbors and community development groups, and may be filed by the City, in an attempt to stabilize deteriorating or vacant properties. Civil nuisance abatement actions are filed by the City to compel owners to address conditions which pose a threat to the health and safety of neighborhoods. Both of these types of filings are increasing. Both types of cases are extremely time-intensive for the Housing Court staff, requiring the work of the Judge, magistrates, housing court specialists, the staff attorney, and the Court's ADR specialist. These cases often call for one or more site visits, multiple meetings with the parties, and may involve issues of liens and real estate title. The Court continues to develop its expertise in these cases, doing the required research and putting into place standard procedures and orders, to ensure the prompt, fair adjudication of these cases, with notice to all interested parties.

PROGRAM NAME: HOME COURT VIDEO SERIES

OBJECTIVE: To educate the public regarding issues effecting residential and commercial property law and programs available through the Housing Court.

ACTIVITY: The Housing Court produces videos featuring experts in their respective fields, who provide information on a number of topics of interest to City residents, including: mold, winterization, exterior maintenance of historic homes, garage maintenance, landlord rights and responsibilities, water problems, insect damage, porches, slate roof, trees, Court Community Service, and other topics. New videos include information on rodents and lead hazards. The videos are available through the Court and the Cleveland Public Library, and are aired on a local public access channel.

PROGRAM NAME: FORECLOSURES

OBJECTIVE: To adjudicate foreclosure actions fairly and efficiently, developing procedures and expertise in processing these cases while monitoring the condition of the properties.

ACTIVITY: In 2004, the Housing Court established the requisite rules and procedures to begin hearing foreclosure actions, in response to several attorneys expressing a desire to file foreclosures in the Housing Court. The Court will continue to develop in this area, relying upon the expertise of its staff to offer information to the owners and tenants, monitor the condition of the property, require stabilization of the property during the foreclosure process, minimize the amount of time vacant properties remain in foreclosure and hasten the transfer of those properties to responsible owners.

PROGRAM NAME: MEDIATION/ALTERNATIVE DISPUTE RESOLUTION

OBJECTIVE: To provide parties with an opportunity to resolve their disputes by agreement, with assistance from court personnel. This often enables parties to address both the issues raised in the case before the court, and issues that go beyond the limits of the pleadings.

ACTIVITY: The use of alternative dispute resolution continues to increase in the Housing Court. The Court employs a mediation coordinator, an alternative dispute resolution specialist, and volunteer mediators to offer the parties this option at most stages of the criminal and civil cases. Additionally, Housing Court Specialists provide occasional assistance with mediations, as do the Court's Staff Attorney and Judicial Clerk. Since 2004, over 1200 landlord-tenant disputes have been resolved in whole or in part through mediation. In addition, the alternative dispute resolution specialist, an attorney with significant court experience, has aided parties in resolving a class action lawsuit, and numerous complex civil cases set for jury trial. In a number of criminal cases, disputes involving the City, contractors, and homeowners have been resolved to the satisfaction of all parties.

Department of Consumer Affairs

Department of Consumer Affairs

JOHN MAHONEY, DIRECTOR

Mission Statement

To provide relief from fraudulent, unfair, deceptive and unconscionable business practices, by monitoring and enforcing the Cleveland Consumer Protection Code, as well as State and Federal Consumer Protection laws.

The office of Consumer Affairs enforces all provisions of Cleveland's 1972 Consumer Protection code by networking with appropriate public and private complaint intake agencies and achieving the ultimate goal of creating a legal conscience in the marketplace by prosecuting violators of the code within the Cleveland jurisdiction. It is unique among local consumer agencies in that it may subpoena witnesses and hold administrative hearings for the purpose of determining whether a vendor has engaged in an unfair or unconscionable trade practice with a Cleveland consumer. Field work and such hearings may result in criminal and/or civil prosecutions against violators of the code.

In addition to resolving complaints through negotiation and legal proceedings, the office strives to educate consumers on how to avoid fraudulent business practices by working with the media, by holding public forums in the neighborhoods and by working cooperatively with private and governmental consumer agencies. The office also interacts with various levels of government to impact on key consumer issues, ranging from utility rate matters before the Public Utilities Commission of Ohio to banking practices.

DEBT SERVICE

SINKING FUND COMMISSION

FRANK G. JACKSON, PRESIDENT

SHARON DUMAS, SECRETARY

MARTIN J. SWEENEY, MEMBER

ELIZABETH C. HRUBY, ASSISTANT SECRETARY

The Sinking Fund is the bond retirement fund of the City and its operations are governed by the Ohio Revised Code, the City Charter and the General Bond Ordinance. The Sinking Fund Commission consists of the Mayor, Director of Finance, and City Council President. An Assistant Secretary is appointed by the members to conduct the business of the Sinking Fund Commission. The Sinking Fund Commission is responsible for the issuance and payment of all City debt including general obligation bonds, special revenue bonds, non-tax revenue bonds and tax increment financing debt.

DEBT MANAGEMENT POLICY

The Sinking Fund Commission is responsible for maintaining detailed records of the City's outstanding debt obligations until their maturity and ensuring that all debt is paid when due. The Sinking Fund Commission's composition is defined in the City Charter and its duties are outlined in the covenants of the General Bond Ordinance and the Sinking Fund Ordinance.

The Sinking Fund Commission acts as the citywide coordinator for all debt issuance and monitoring activities. This includes the sale of all general obligation, special obligation and enterprise (revenue) bonds and notes. In addition the Commission deposits on behalf of itself and the Enterprise Funds any moneys to be applied to the payment of debt charges. This includes money and investments derived from ad valorem property taxes, restricted income tax, enterprise reimbursements, non-tax revenues and the proceeds of renewal bonds or notes. The Commission maintains and reconciles all bank accounts for General Obligation, Special Obligation and Enterprise (Proprietary) Obligations of the City.

The City issues its general obligation bonds in connection with its overall Capital Improvement Program. Programs that have benefited from the issuance of general obligation debt include, but are not limited to, public service improvements, bridge and roadway improvements, recreation facilities, and urban redevelopment.

The City's Enterprise Funds develop their own individual capital improvement programs and issue revenue debt as necessary to assist with the implementation of their CIP programs. The Sinking Fund Commission works jointly with each individual Enterprise Fund when issuing revenue debt.

PROGRAM NAME: DEBT ADMINISTRATION AND RECORD MAINTENANCE

OBJECTIVES: To ensure the proper disbursement of funds for the payment of debt by maintaining accurate records of fixed rate and variable rate debt service requirements and other schedules of cash and investments.

ACTIVITIES: Maintain complete records of all financing transactions and outstanding debt service requirements. Respond to bondholder questions and requests. Record and reconcile all debt related activity within the City's accounting system. Process all principal and interest payments. Collect funds from the Cuyahoga County Auditor, the General Fund, the Restricted Income Tax Fund, Special Revenue Funds and Enterprise Funds in order to make funds available for disbursements on a timely basis for the payment of debt service. Prepare the state required debt schedule, which certifies the amount to be paid from taxes and levying tax sufficient to cover debt service. Through an escrow agent or trustee, coordinate the investment of cash in investments permitted under the General Bond Ordinance, the Sinking Fund Ordinance and enterprise fund indentures.

PROGRAM NAME: DEBT ISSUANCE AND COMPLIANCE

OBJECTIVES: To ensure that the City issues all debt in a cost effective manner and complies with all covenants in the General Bond Ordinance, the Sinking Fund Ordinance and in all revenue or special obligation bond indentures as well as all federal regulations governing the issuance of debt.

ACTIVITIES: Coordinate the issuance of debt and other obligations by working with the Law Department, bond counsel, financial advisors, underwriters, rating agencies and insurers. Evaluate financing proposals received by the City. Determine structure of financing transactions. Coordinate the annual submission of continuing disclosure information pursuant to the City's various Continuing Disclosure Agreements for its bond issues in accordance with SEC Rule 15c2-12. Facilitate the required arbitrage rebate calculations required by federal regulations.

2010 ACTIVITY

On February 1, 2010, the City entered into a \$6,690,000 vehicle lease agreement with Fifth Third Bank. The funds will be used to purchase a variety of vehicles including police cars, EMS ambulances, a fire truck and street sweepers. Lease payments will be made from the Restricted Income Tax for a period of seven years.

Effective April 22, 2010, the City issued \$63,225,000 Refunding Certificates of Participation, Series 2010A, and \$69,900,000 Refunding Certificates of Participation, Series 2010B, for the Cleveland Stadium Project. Proceeds of these Certificates were used to refund all of the \$108,390,000 outstanding Series 2007 Refunding Certificates of Participation (COPs), to fund a debt service reserve fund, and to make a termination payment on an existing hedge agreement. The 2010A COPs were issued as fixed rate obligations while the 2010B COPs were purchased by Wells Fargo Bank as floating rate obligations. As a result of this refunding, the City achieved net present value debt service savings of 3.19%.

The City issued \$27,380,000 Subordinate Lien Income Tax Bonds, Series 2010, effective June 23, 2010. The bonds were issued to pay costs of various public improvements including roads and bridges, public facilities and parks and recreation facilities. The City took advantage of several new financing programs created by the American Recovery and Reinvestment Act and issued most of these bonds as either Taxable Build America Bonds or Taxable Recovery Zone Bonds. As a result, the City will receive federal cash subsidies in amounts equal to a portion of the interest owed on the bonds.

On August 19, 2010, the City issued \$50,000,000 Subordinate Lien Water System Revenue Notes. These notes will provide a portion of the funds needed for a new Automated Meter Reading program for the Division of Water.

Effective September 8, 2010, \$23,915,000 of Public Power System Revenue Refunding Bonds, Series 2010, were issued. Proceeds of the bonds were used to refund the outstanding \$26,425,000 Public Power System Bonds, Series 1998. As a result of this refunding, Cleveland Public Power achieved net present value debt service savings of \$3,054,564 or 11.56%.

On December 21, 2010, the City issued \$11,000,000 City Annual Appropriation Bonds through the Cleveland-Cuyahoga County Port Authority. Proceeds of the bonds are being used to provide funds for land purchase and public improvements in the area of the Flats East Development Project.

Effective December 30, 2010, the City issued \$54,935,000 Water Revenue Bonds, Series U, and \$26,495,000 Water Revenue Bonds, Series V. Proceeds of these bonds were used to refund the outstanding Water Revenue Bonds, Series R, 2009 and Water Revenue Bonds, Series S, 2009 in order to eliminate high letter of credit fees or high interest rates caused by the downgrade of the letter of credit bank. The City negotiated a direct purchase of the Series U Bonds by US Bank and a purchase of the Series V Bonds by PNC Bank. Both series of bonds are variable rate obligations. The interest rate swaps associated with the Series R and S Bonds were transferred to the new Series U and Series V Bonds.

BRAD A. HANDKE, ADMINISTRATIVE MANAGER

Mission Statement

To operate the City's radio system in a reliable and secure manner, suitable for use by all City divisions; providing maintenance, programming services, interoperability, and improvements to the infrastructure to insure sufficient system capacity to meet the wireless communications needs of the City.

PROGRAM NAME: RADIO SYSTEM MAINTENANCE

OBJECTIVES: To maintain the City's 800 MHz system in a reliable condition, suitable for use by all City divisions including Police, Fire, and EMS.

ACTIVITIES: Ensure that maintenance contracts are in place for infrastructure, as well as for ancillary facilities; to administer maintenance contracts, respond to alarms, system problems, and user problems in an effort to coordinate maintenance efforts.

PROGRAM NAME: RADIO SYSTEM REBANDING

OBJECTIVES: To complete the mandatory Federal Communications Commissions rebanding of the current 800MHz radio system.

ACTIVITIES: Schedule and coordinate the rebanding effort using the vendor(s) selected. To ensure a smooth transition from the old frequencies to the new one issued by the FCC and to ensure that all entities are served and provided with comparable facilities once the rebanding process is completed.

PROGRAM NAME: RADIO SYSTEM ADMINISTRATION

OBJECTIVES: Respond quickly to requests for programming and reprogramming of mobile and portable radios, as well as other system requests.

ACTIVITIES: Work with user divisions to ensure that changes in radio templates are made in a timely fashion and suggest changes or improvements in radio configuration. Provide advice on how to best create interoperability between the internal and external entities located in and outside of the City, and retemplate radios that have undergone maintenance or are being relocated from one vehicle to another.

PROGRAM NAME: EQUIPMENT PURCHASE PROGRAM

OBJECTIVES: To purchase equipment for city divisions to ensure the proper operation of all City of Cleveland radios and related equipment, including equipment installed into city owned vehicles.

ACTIVITIES: Obtain necessary equipment through multiple contracts to ensure proper operation of city owned equipment. Use the leverage of large quantity discounts offered by vendors by combining orders for similar items from multiple divisions' orders. To serve as the one stop purchasing center for materials related to both installation and maintenance of ancillary radio equipment as well as their peripheral devices.

PROGRAM NAME: WIRELESS COMMUNICATIONS BUILDING PERMIT APPLICATIONS

OBJECTIVES: Ensure that wireless communications providers utilize existing, and new, poles and structures in an efficient and non-blocking manner.

ACTIVITIES: Review building permit applications, and conduct site surveys.

Department of Public Utilities

Office of Radio Communications

PROGRAM NAME: LEASE OF FACILITIES FOR WIRELESS COMMUNICATIONS USE

OBJECTIVES: Ensure that leases for City properties by wireless communications providers provide City divisions with fair compensation for their usage.

ACTIVITIES: Negotiate leases with wireless communications providers in conjunction with the Law Department and the City division that owns the property or facility.

PROGRAM NAME: ORC SERVICE CENTER FACILITY

OBJECTIVES: Provide services related to the installation, removal and repair of 800 MHz two-way radios from City divisions. This program also provides for drive-in services for vehicles that usually go to outside vendors for miscellaneous radio services. Also in 2008 the Service Center took on responsibility for other peripheral equipment including GPS, AVL, and some MDT/Camera work.

ACTIVITIES: Install and remove radios for other City divisions, so as to reduce the amount of money being spent on outside vendors. To provide service to all City divisions using 800 MHz radio equipment. This program will eliminate most of the outsourcing of radio services that the City of Cleveland does for its vehicle fleet and will help to prevent vehicles and personnel from being Out of Service. In addition the Service Center has started computer installations for the division of EMS and has continued with removing equipment related to MDT's, GPS, and AVL, from vehicles to reduce the cost of having outside vendors remove this equipment.

ROLFE S. PORTER, ACTING COMMISSIONER

Mission Statement

CWD delivers a reliable supply of high quality water and customer services to promote public health and safety, economy, and quality of life of Greater Cleveland.

The Division of Water (CWD) was created in 1853 and charged with the responsibility of collecting, treating, pumping and distributing potable water and of providing related water services to customers within its service areas.

The Division of Water operates a major public water supply system, which services not only the City of Cleveland, but also approximately 76 suburban municipalities in Cuyahoga, Geauga, Lake, Medina, Portage, and Summit counties. The present service area covers about 680 square miles of which 593 square miles are for core services while 87 square miles are provisional emergency feed areas. CWD serves more than 1.55 million people. The City is empowered to establish rates and charges for the service provided by its Water Division, to acquire property and construct facilities to provide water services throughout the service area and to perform other necessary functions with respect to the operation and maintenance of the water works system. The Division of Water is a self-supporting regional utility.

The Division of Water draws raw water from four (4) intake tunnels in Lake Erie, chemically treats and disinfects the water, passes it through mixing and settling basins and then sand and gravel filters so that it becomes potable, and pumps it into reservoirs, storage towers, tanks and distribution lines. These services are provided to all of greater Cleveland, with approximately 50% of the water to industrial and commercial users and the remaining 50% to residential users.

The Division of Water maintains and operates four (4) treatment plants, five (5) major pumping stations, eleven (11) secondary pumping stations, twenty-one (21) storage facilities, and about 5,200 miles of water mains in four (4) different pressure zones which are determined by elevation above the lake. The City of Cleveland has recognized that a viable public water supply system is essential to the social and economic growth of a metropolitan city. If the City and surrounding areas are to grow and contribute to the economic viability of the central core, it is necessary for the area to have an adequate, economical public water supply.

PROGRAM NAME: WATER OPERATIONS

Water Pollution Control

OLLIE SHAW, COMMISSIONER

Mission Statement

Provide services that sustain the free-flow of surface water through cleaning and maintaining a network of sewers and sewer connections.

The Division of Water Pollution Control serves a significant portion of the entire metropolitan area; managing the sanitary sewage, stormwater drainage, and combined collections systems. The Division is responsible for the network of sewers conveying sanitary sewage and industrial waste in the City of Cleveland from their point of origin to an interceptor sewer or treatment facility for processing. The Division maintains, cleans, repairs and improves sewers and their appurtenances, including catch basins, relining and relaying of sewer connections.

Water Pollution Control is responsible for cleaning and maintaining a network of approximately 126,000 catch basins and adjoining laterals. Utilizing specialized equipment and trained personnel, the division services an average of 12,000 catch basins per year. The Division is also charged with managing and supervising the elimination, control or regulation of any matter relating to pollution of water courses within the City limits. The Division has established a preventive maintenance program in known flooding areas to eliminate potential street and basement flooding problems before they occur.

The Division is also responsible for the maintenance of 18 lift stations. To further enhance pump station maintenance, the division installed a Supervisory Control and Data Acquisition (SCADA) system to monitor the stations from our main facility. The system monitors the operations of the pump stations twenty-four hours a day and provides immediate notification of pump station problems. The installation of this system has reduced the manpower needed to check lift stations daily, thereby enabling us to spend more time performing preventive maintenance. This effort was critical to our desire to minimize the potential for discharges to the environment.

Water Pollution Control successfully completed the implementation of ELLIPSE; the division's new integrated Work Management System. The new integrated system uses a relational database which allows different entities to operate within one application. The system provides the Division of Water Pollution Control with the ability to monitor accountability within the selected units of the division's business processes from beginning to end. The process allows the division to monitor labor costs, material/equipment usage and cost, provide total expenditure reports on any particular work assignment, at any given time.

The Division plans to continue its test tee installation program, which is an improved level of service. Water Pollution Control has expanded services by extending our regular business days and hours, and we have continued the upgrading of our service equipment to insure that we have the resources to address sewer concerns. This has allowed Water Pollution Control to further enhance its pro-active maintenance program. The Division continues to review core business practices to identify ways of gaining greater efficiency. This is consistent with our continuous improvement management philosophy.

IVAN L. HENDERSON, COMMISSIONER

Mission Statement

To provide reliable and economical electric service to all electric customers in the City of Cleveland.

The Division of Cleveland Public Power is responsible for all electrical generation, transmission, and distribution facilities owned by the city. The Division provides electricity to about 77,000 residential, commercial, industrial, and governmental customers. In addition, the Division provides service to over 64,000 streetlights in the City of Cleveland.

The Division purchases power from numerous sources, which includes American Electric Power, AMP-Ohio, Cinergy, and New York Power Authority, and obtains transmission services through the Midwest ISO and the PJM Interconnection. In addition, the division uses its three 15 mW gas turbines and six 1.8 mW gas peaking turbines to provide for its customers requirements.

Wholesale power is brought into the system via the Division's three 138 kV interconnections. The interconnections are located at the Division's Lake Road Substation, Nottingham Substation, and the Ridge Road Substation.

Cleveland Public Power is currently undergoing a Capacity Expansion Program that will add a 4th – 138kV interconnection with the FirstEnergy transmission system at the Division's Holton Substation, along with capacity projects that will extend the southern portion of CPP's 138 kV transmission system, and add a 138/13.8 kV substation and 13.8 kV distribution circuits. The capacity expansion will also result in the expansion of the Lake Road 11.5 kV substation and the 11.5 kV distribution system in downtown Cleveland. CPP's system reliability and ability to serve future load growth opportunities will be improved by these additions, which are scheduled for completion by 2012. Funding of CPP's Capacity Expansion will be mostly funded with the proceeds of the Series 2008 Bonds.

PROGRAM NAME: CLEVELAND PUBLIC POWER OPERATIONS

RONNIE M. OWENS, COMMISSIONER

Mission Statement

To reduce public health hazards resulting from refuse dumping in City of Cleveland neighborhoods by providing collection and appropriate disposal of residential, commercial, recyclable and city owned public area waste for the citizens of the City of Cleveland.

The division of Waste Collection is committed to providing an efficient collection and disposal service to approximately 190,000 dwelling units on a weekly basis. The waste collection process includes residential waste, bulk items, tires, receptacles, and dead animal collection.

In addition to the City's current method of waste collection, an automated Pilot Program begun in 2008 and is being provided to 15,000 Cleveland residents. The new system is significantly more efficient and user-friendly, and should encourage more participation in recycling, since items can be recycled curbside. Through this program, residents receive sturdy garbage carts for trash and recycling which can be wheeled to the curb. The new collection program will eventually be city-wide.

The City of Cleveland annually disposes of approximately 300,000 tons of debris. The majority of this debris is processed through the Ridge Road Transfer Station; a city owned operated facility, with a processing capacity of 3,000 tons per day. The remainder of the debris is disposed of via the use of privately owned landfills or Transfer Stations.

In addition to the residential collection service, the Division of Waste Collection offers alternative ways of disposal via the Commercial Collection and Residential Dumping program. The Commercial Collection program provides permanent and temporary dumpster rental services to city residents, city facilities, and Cleveland area businesses at a competitive rate. The Residential Dumping program provides Cleveland residents the ability to dispose of regular solid waste and recyclables at the Ridge Road Transfer Station free of charge with proof of residency.

Mission Statement

To promote and protect the health of all persons who reside in or visit the City of Cleveland.

The Division of Environmental Health includes 2 Bureaus, which administer some 17 environmental program activities, most of which are mandated by City codes or State of Ohio statutes. The Bureau of Environmental Health Services' objective is to provide programmatic activities (inspections, surveillance and investigations) at a sufficient level to protect the health of the public as it relates to the programs charged to the Bureau through existing codes. Duties of the Bureau consist of food safety inspections and training, nuisance complaint investigations, rodent and vector control activities, school environment inspections, solid and infectious waste inspections and the approval of various license applications as imposed by City and State codes, and allied duties which may be imposed by ordinance or statute.

The Bureau of Lead Safe Living-Healthy Homes' objection is to reduce the incidence of lead poisoning in children and early identification and action to reduce blood lead levels in children diagnosed with lead poisoning. The Bureau's activities include screening children ages 1-5 for blood lead levels through direct outreach and cooperation with health care providers; operating a laboratory to analyze blood lead samples; providing medical monitoring and follow-up of lead poisoned children; inspecting residences of lead poisoned children to identify and reduce lead hazards; and contracting with local organizations to perform abatement activities to reduce lead hazards in homes of low-income families

GEORGE BAKER, COMMISSIONER

Mission Statement

To ensure that emissions of regulated air pollutants from industrial sources in Cleveland and Cuyahoga County are in compliance with Federal, State, and Local regulations and to monitor ambient air quality within the Greater Cleveland area to meet Federal Clean Air standards each day of the year.

The division of Air Quality serves as Ohio EPA's Delegated Agent for air pollution control for all of Cuyahoga County. The objective of the Division is to bring all industrial and commercial sources of air pollution into compliance with the City Air Pollution Code and Ohio Air Pollution regulations. This will result in lower levels of air pollution and continue progress in meeting Federal Clean Air Standards. The Division of Air Quality is composed of three sections that work together to achieve the objective of meeting Federal Clean Air standards. The Field Monitoring Section measures air pollution levels at more than 21 sites in Cuyahoga County for six National Ambient Air Criteria Pollutants. These measurements determine the overall air quality in the city and county. The Engineering Section operates the permit system, which requires all industrial sources of air pollution to register and obtain permits. The permit system identifies sources and establishes limits on the amount of emissions released into the atmosphere. The Enforcement Section maintains surveillance on pollution sources and responds to complaints from the public about a variety of air pollution issues.

MICHAEL MCGRATH, CHIEF

Mission Statement

To protect the life and property of all citizens against criminal activity and to create an environment of stability and security within the community.

The highest priority of the Division of Police is providing basic police services to the community. The Division is organized into four main functional programs in order to deliver these services in the most efficient and cost effective manner possible.

Administrative Operations provides the necessary support services that enable Field Operations, Homeland Security, and Special Operations to function as effectively as possible. Administrative Operations provides warrant, subpoena, and property processing; radio and telephone communications; management of information and human resources. Additional functions include the reporting and recording of crimes and incidents and the continued development of the Division through planning and training of all personnel.

Field Operations provides response to citizen calls for assistance through uniformed patrol activities in five districts and interacts through the community via DARE programs, Community Relations, and the Auxiliary Police. The District support sections assist uniformed patrol efforts through the investigation of major offenses, concentrated enforcement action on specific complaints and crime pattern analysis. The Bureau of Traffic provides crowd control and traffic control at major events and investigates serious traffic accidents. Quality of life issues are addresses by the Community Services Unit.

Special Operations is composed of two main sections which provide a variety of investigative and technical services to the Division and the community. Investigations are completed by detective bureaus that specialize in specific crimes such as auto theft, fraud, homicides, sex crimes, and youth crimes. Support units such as SWAT handle volatile situations where specialized training is required. Technical Support provide forensic and crime scene analysis as well as photo lab services.

Homeland Security prevents, responds, and investigates terrorist activities in our City and the Greater Cleveland area by establishing security initiatives, securing our airports, and analyzing crime data for future preventative crime/terrorist trends. Homeland Security coordinates and shares law enforcement intelligence with local, state and federal law enforcement agencies.

PROGRAM NAME: DIRECTOR'S OFFICE

OBJECTIVES: To provide supervision and management assistance to the Code Enforcement and Permit Sections.

ACTIVITIES: Monitor Department expenditures and revenues and other accounting activities. Maintain records and provide information services. Perform personnel and labor relations functions. Monitor nuisance abatement activities. Oversee and coordinate activities of state-certified staff in both divisions in accordance with State requirements.
